

SECOND QUARTER ASSESSMENT OUTLINE.

Dear students and parents, this is our second quarter assessment table and details:

ITEM	POSSIBLE POINTS
Participation	25
Group Project	25
Cornell	25
Midterm exam	25 + 10 bonus points
TOTAL	110

Participation includes the following: class work, participation in class, random homework, and behavior in classroom.

Group Project: Posted in freshman religion webpage.

Cornell Notes must include the following: use a ruler to divide each page, have complete notes and assigned summaries. Student must take time to write neat Cornell Notes. A rubric for Cornell Notes will be handed out during class.

Midterm exam will be taken in January. There will be bonus questions included in the exam for those who wish to take advantage of some extra points.

If a student gets over 100 points for this quarter, I will add the extra points to his next quarter grade. There will be a penalty of -1 point for unacceptable behavior during class. I will warn two times, the third time will be a point off from participation points. In other words, if you get three strikes you are out one point. If student continues distracting the class, I will give detention.

For a successful quarter just listen, participate, take notes and you will do fine!
